A GOOD SUGGESTION.

The Canadian Gazette of London, with the assistance of Sir Charles Tupper, keeps pretty well informed on Canadian Government matters. Speaking of Sir John Thompson's mission to England it says:—"While in this country the hon. gentleman will no doubt take the opportunity of discussing with the authorities here such questions as relate to the Behring Sea, the Canadian Copyright Act and the more adequate representation upon the Judicial Committee of the Privy Council of judges conversant with Colonial practice—with all of which it need scarcely be said he is thoroughly familiar." There could be no more suitable addition to the Judicial Committee of the Privy Council than Sir John Thompson himself. Canadians are justly proud of his great legal abilities and would gladly see him added to that body of able lawyers whose superiors are not found in any judicial tribunal in the world.

Canadian Cattle in England.
(Canadian Gazette, London, June 28.)
The slightly diminished imports of United States cattle have been more than balanced by the arrivals from Canada, and while the demand has on the whole been steady, sellers of 1,000 cattle were shown, and although the attendance of country buyers was more numerous than on Monday last, trade was considerably worse at prices almost equal to those in London. A couple of outside steamers, with 1,200 cattle, discharged on Sunday, and on Monday the Oregon landed 395 head. Some portion of these late arrivals will find their way to Wakefield and Bristol, and the balance be either sold privately during the week or held for next market. Altogether the outlook is not encouraging, and even with the reduced freight rates now current, our Dominion shippers must be losing money. The sales of Dominion store stock in Scotland are reported on the whole as satisfactory, the yearlings and two-year-olds selling cheaply, relatively speaking, than the older bullocks. These shipments of lean stock in Scotland have been referred to as a "great drain" upon the resources of an agricultural country like Canada, and is not likely to be maintained for any length of time. On that point a correspondent says:—"Canada has for many years carried on an extensive trade in the shipment of young stock to Buffalo and other States markets. By the recent change in the American tariff whereby all imported live stock was burdened with an almost prohibitive duty, the farmers of Canada were obliged to look in another direction for some outlet for their young lean stock. Naturally, this was found at Glasgow and Aberdeen, where for some years past, feeders have been successfully handling the half-fattened cattle usually shipped in the fall. So far therefore from being any drain on the resources of the Dominion, it is simply a diversion from one market to another, and one that will be followed by the best results."

∴ REAL - ESTATE ∴ BY AUCTION

-ON-

TUESDAY, JULY 22nd, 1890.

The undersigned will offer the masses, from all ends of the earth,

Calgary Mud at Their Own Prices

And on Terms that will Suit Everyone.

On Monday, July 21st,

BEFORE YOU EAT THE OX, call at our office, where you will see a list of a portion of the properties

Which will be Knocked Down to the Highest Bidder

at the sale of Real Estate on the following day. Remember

**We have Scores of Lots for Sale at Prices Much Below
Their Actual Value.**

This, in all probability, will be the last opportunity the public will have to

Secure a Location in Calgary at Such Low Prices and Easy Terms.

Our reputation for Square Dealing is well established, and we have never sold
a piece of property to any man that we have not been able to

PLACE IT AGAIN at a LARGE PROFIT.

These facts, coupled with the

Calgary and Edmonton Railway

construction north and south from Calgary, should be a sufficient guarantee to justify the opening of the pocket books of those who have heretofore been afraid to loosen up and have
always been looking for a sure thing. Now they have a rare chance for snags and sure things.

Sale Commences at Two P. M., TUESDAY, JULY 22nd.
